

CMX20

High Speed Mix Coin Counter

The compact and robust machine with reliable detection and a processing speed of up to 2,300 coins per minute makes the CMX20 the ideal machine to process deposits quickly in cash centers, bigger bank branches and other high volume locations which need to process mixed coins.

HEAVY DUTY AND CONVENIENT

CMX20s core unit has been running for years in heavy duty environments and have proven trouble-free operation in cash centers and other demanding locations.

- Long maintenance intervals
- Big and robust rubber keys
- Large hopper for 3,500 coins (Euro-Mix) and max. 6,000 coins (dimes)
- Contact free detection system
- All functions are quickly accessible
- Automatic and silent belt feeding
- Easily accessible coin path

POWERFUL AND RELIABLE

The non-volatile memory secures your counting data also in case of power failure. The successful certification and the optionally available statistic box allow credit institutions to work and report according the regulations for cash professionals.

- Up to 2,300 coins per minute
- Complies with EU regulation 1210/2010
- Optional statistic box
- Interfaces for RS232, display and printer
- Variable batch stops
- For Mix counting / Denomination sorting
- Big coins size range D 14 - 34 mm T 0.8 - 3.5 mm

CMX20 with optional stand

FACTS AND SPECS

Product versions

- CMX20 (23400)

Included accessories

Coin boxes, cleaning set, power cable, user manual, 1 bag holder

Options

- Bagging unit (2220A0001)
- Paper rolls for printer (22307)
- External display L (22309+22310)
- External display S (22318+22310)
- Tubing set (EUR/21003)
- RS232 cable (22308)
- Open reject box (ZJY504-Z001)
- Statistic module (22310)
- Machine stand (23401)

Interfaces

- RS232, display

Dimensions and weight

- 480 mm (W), 260 mm (D), 460 mm (H)
- 46 KG

Technical Specifications

- 230 VAC (+5%/-15%), 50/60Hz, 230W
- 10° C to 35° C, 20% to 80% RH
- LpA < 80 dB(A) (uncertainty: 2)
LpA Standby < 43 dB(A)
- CE, RoHS
